- T-shirt design

APPEAL TO YOUR END USER AND MAKE THEIR VISIT MORE MEMORABLE - You have a logo or art, but something's not right. Maybe it looks dated, it isn't crisp or the colors are slightly off. The idea is good, but part of it doesn't do the trick or worse, it leaves customers with a flat impression.

You can abandon your current logo or images and start over if the existing is fatally flawed. Or we can fix your images and call it logo & graphics repair.

We take your existing images and transform them into something more exciting and effective for your marketing and branding efforts. We clean up the logo design, leaving the original spirit and general direction of your design plan in place, make adjustments and produce finished product or logo that will improve the appearance.

In addition, if someone else did your design, you might have lost the original files or you may have never had your logo or images in those important digital formats.

MOVE PRODUCT FASTER OUR APPROACH IS SHOW CASING YOUR PRODUCT -

Woodsvie Art designed glass ornaments for major universities and wanted to showcase these ornaments in a shopping basket.

Capturing the light and color detail was crucial in selling much of this product.
